Re: Recent Clinic Visit

Dear Congressman Kennedy:

I am writing to follow up on your recent treatment in our office for gastroenteritis on the night of May 2, 2006. You were prescribed phenergan to help treat your symptoms. The side effects of phenergan include drowsiness and sedation. Also, review of your medical record shows that you were prescribed ambien on April 25, 2006 to assist with insomnia.

Should you have any questions or require additional information, please contact this office.

Sincerely,

John F. Eisold, M.D., F.A.C.P.
