Suggestion:

You should tell us what would be suspicious in these camera views. Example water. Is there supposed to be boats? I seen in camera view a speed boat went under a bridge. I wouldn't know if that's normal or suspicious activity.

Suggestion:

This is GREAT. Now anyone can monitor these cameras and do there part in keeping AMERICA safe. This should have been done years ago. CONGRATS to whom ever recommended and participated in getting this done. THIS IS EXCELLENT. Thank you very much.....

Is it possible to get a reply, even brief, as to any success with my reports on suspicious activities? It would really encourage me to continue viewing the cameras everyday. I really want to help in securing our border.

Suggestion:

Just signed onto the camsite yesterday and I am impressed with the clarity of the camera's both day and night. Also commend you on your attempt to secure the borders. Suggestion: If possible/practible, televise on unused cable stations. A lot of retired people that are not computer savvy would watch the TV. The downside is that you may get more reports than you can deal with. The only suspicious activity I saw was 4 deer and 1 horse. They kept looking over their shoulders! :-)
Good job!

Suggestion:

I really like this idea and will be happy to spend odd times watching out for all of us (not just Texas). One suggestion I would have is some sample footage of what to look for. I noticed someone walking around in one of the parking lot cameras. Obviously, that would be a normal activity in a parking lot. I suspect what would need to be reported is 15-30 people running through the parking lot. An example or two of what to look for would be extremely helpful. Also, it would be nice to be able to have multiple screens up at the same time. It would be even better if I could have multiple screens up at the same time and have it as part of my computer background. That way, I could watch everything at a glance whenever I close a program.

Suggestion:

it would be help to get a little background on each camera site. Like where the border is, how much traffic is usual. Thing like that.

I am a lieutenant with the Polk County sheriff's Office in Florida and I think this is a great idea. I would like to implement something like this on a local level to monitor drug areas etc. Keep up the great work.
