

Interviews with 370 adult Americans who watched President Bush's speech conducted by telephone by Opinion Research Corporation on January 23, 2007. The margin of sampling error for results based on the total sample is plus or minus 5 percentage points.

Survey respondents were first interviewed as part of a random national sample on January 19-22, 2007. In those interviews, respondents indicated they planned to watch tonight's speech and were willing to be re-interviewed after the speech.

Some questions were asked of each respondent both in the pre-speech questionnaire on January 19-22 and on tonight's questionnaire. Where applicable, results for tonight's respondents from both the pre-speech survey and the post-speech survey are reported.

32% of the respondents who participated in tonight's survey identified themselves as Republicans, 31% identified themselves as Democrats, and 36% identified themselves as Independents.
