## He Was Right About Iraq.

John McCain was the ONLY candidate to call for the "Surge Strategy" in Iraq. He was proven right. Now, we are finally seeing progress in the War Against Islamic Extremism.

## McCain Says: "Secure our borders FIRST..."

John McCain knows illegal immigration is a national security issue. His plan is to secure the borders FIRST –

and to get border state Governors to certify that the borders are secure as the top priority in immigration reform.

McCain does better against Clinton than all other Republicans

## He Can Beat Hillary Clinton or Any Other Democrat

According to all major surveys, John McCain performs better than all other Republicans in the critical swing states Republicans need to win. He is the ONLY conservative Republican who can keep the winning Reagan coalition of economic and social conservatives together for victory in November.

### "When John McCain was shot down...

and taken prisoner by the North Vietnamese, he was repeatedly beaten. When his captors discovered that his father was a top US Admiral, they ordered him released for propaganda purposes. But McCain refused, insisting that longer-held prisoners be released before him. So they beat him some more. He never gave in then. And he won't give in to our enemies now."
